

## SCIENCE AND EVIDENCE BASED CANCER INFORMATION WEBSITES

### **INTRODUCTION**

A mission of The Montana Cancer Control Coalition (MTCCC) is “to develop, implement, promote, and advocate for a statewide, coordinated, integrated approach to cancer control for all Montanans.” The Montana Comprehensive Cancer Control Plan states that an important step to achieving this mission is to provide links to evidence-based cancer information. The Treatment & Research Team, with the assistance of the rest of the MTCCC, developed a resource list of science and evidence-based cancer information websites. The websites are divided into categories and subcategories to facilitate efficient use of the information. To the extent possible, we have chosen sites representing little or no commercial bias. This is a document that will evolve with the science and with time. The document will be reviewed and updated annually by the Treatment and Research Team.

### **LINKING POLICY**

No endorsement is intended or made of any hypertext link, product, service, or information either by its inclusion or exclusion from this page or site. While all attempts are made to ensure the correctness and suitability of information under our control and to correct any errors brought to our attention, no representation or guarantee can be made as to the correctness or suitability of that information or any other linked information presented, referenced, or implied. All critical information should be independently verified. Any questions should be directed to the administrators of this or any other specific sites.

Nothing contained in this site is or should be considered, or used as a substitute for, medical advice, diagnosis or treatment. The services provided on this site are here to educate about cancer control and related medical issues. This site and its services do not constitute the practice of any medical, nursing or other professional health care advice, diagnosis or treatment.

The Montana Cancer Control Coalition particularly highlights Health On the Net (HON)-code accredited sites (indicated by an asterisk). This is the leading organization providing quality and trustworthiness of medical and health information on the web. Created in 1995, HON is a non-profit, non-governmental organization, accredited by the Economic and Social Council of the United Nations. See <http://www.hon.ch/visitor.html> (CTRL + click to follow this link).

### **Clinical Trials Information**

Web site: [www.breastcancerprevention.com](http://www.breastcancerprevention.com)  
Clinical research studies offer the best hope for the proper evaluation of drugs and medical techniques. This site offers the opportunity to obtain credible information on clinical trial research and to assess your chances of getting breast cancer.

Web site: [www.cancertrialshelp.org](http://www.cancertrialshelp.org)  
A non-profit organization founded in 1997, the Coalition was chartered to increase participation in high-quality cancer clinical trials, thereby accelerating development of new cancer therapies. Today the Coalition offers a full suite of programs and services designed to increase the understanding of cancer clinical trials and boost participation. Close-knit collaborative relationships with healthcare industry partners concentrate on streamlining and promoting cancer clinical trials in both the public and private sectors, enhancing the clinical trials experience for physicians and patients alike.

Web site: [www.clinicaltrials.com](http://www.clinicaltrials.com)  
Clinicaltrials.com is an internet resource for finding clinical trials in the United States and Canada.

Web site: [www.clinicaltrials.gov](http://www.clinicaltrials.gov)  
ClinicalTrials.gov provides regularly updated information about federally and privately supported clinical research in human volunteers. ClinicalTrials.gov gives information about a trial's purpose, who may participate, locations, and phone numbers for more details. The information provided on ClinicalTrials.gov should be used in conjunction with advice from health care professionals.

Since 1991, the National Breast Cancer Coalition's trained advocates have lobbied at the national, state and local levels for public policies that impact breast cancer research, diagnosis and treatment. The grassroots advocacy effort has hundreds of member organizations and tens of thousands of individual members working toward increased federal funding for breast cancer research and collaborating with the scientific community to implement new models of research, improve access to high-quality health care and breast cancer clinical trials for all women, and expand the influence of breast cancer advocates everywhere breast cancer decisions are made.

## SCIENCE AND EVIDENCE BASED CANCER INFORMATION WEBSITES

### **Financial**

#### **Children**

Web site: [www.candlelighters.org](http://www.candlelighters.org)

Candlelighters Childhood Cancer Foundation (CCCF) is a nonprofit organization that provides information, peer support, and advocacy through publications, an information clearinghouse, and a network of local support groups. CCCF maintains a list of organizations to which eligible families may apply for financial assistance.

Web site: [www.cota.org](http://www.cota.org)

The Children's Organ Transplant Association helps children and young adults who need a life-saving transplant by providing fundraising assistance and family support.

Web site: [www.nationalchildrenscancersociety.org](http://www.nationalchildrenscancersociety.org)

National Children's Cancer Society

Web site: [www.insurekidsnow.gov](http://www.insurekidsnow.gov)

The State Children's Health Insurance Program (SCHIP) is a Federal-State partnership that offers low-cost or free health insurance coverage to uninsured children of low-wage, working parents.

#### **Disease Specific**

Web site: [www.bonemarrow.org](http://www.bonemarrow.org)

The mission of The Bone Marrow Foundation is to improve the quality of life for bone marrow and stem cell transplant patients and their families by providing financial aid, education and emotional support.

Web site: <http://www.tbts.org>

The Brain Tumor Society is a national nonprofit agency that provides information about brain tumors and related conditions for patients and their families. Financial assistance is given through the agency's BTS CARES Financial Assistance Program. This program provides supplementary financial assistance to individuals experiencing financial need. This program covers specific nonmedical costs related to a primary brain tumor diagnosis. Direct medical expenses are not covered.

Web site: [www.cdc.gov/CANCER/nbccedp/legislation/law106-354.htm](http://www.cdc.gov/CANCER/nbccedp/legislation/law106-354.htm)

The Breast and Cervical Cancer Treatment Act provides, in most states, Medicaid coverage for treatment to women who have been screened for and diagnosed with breast or cervical cancer, including precancerous conditions, through the National Breast and Cervical Cancer Early Detection Program.

Web site: [www.leukemia-lymphoma.org](http://www.leukemia-lymphoma.org) \*

The Leukemia and Lymphoma Society (LLS) offers information and financial aid to patients who have leukemia, non-Hodgkin's lymphoma, Hodgkin's disease, or multiple myeloma.

Web site: [www.lymphoma.org](http://www.lymphoma.org)

The Lymphoma Research Foundation offers a limited financial assistance program to help improve patients' quality of life and assist them in receiving the lifesaving treatments that they need.

### **General**

Web site: [www.cancer.org](http://www.cancer.org) \*

The national American Cancer Society (ACS) office can provide the telephone number of the local ACS office serving your area. The local ACS office may offer reimbursement for expenses related to cancer treatment including transportation, medicine, and medical supplies. The ACS also offers programs that help cancer patients, family members, and friends cope with the emotional challenges they face.

Web site: [www.tlccatalog.org](http://www.tlccatalog.org)

The ACS's "tlc" Tender Loving Care<sup>®</sup> publication contains helpful articles and information, including products for women coping with cancer or any cancer treatment that causes hair loss. Products include wigs, hairpieces, breast forms, prostheses, bras, hats, turbans, swimwear, and helpful accessories at the lowest possible prices. The publication strives to help women facing cancer treatment cope with the appearance-related side effects of cancer.

Web site: [www.cancercare.org](http://www.cancercare.org)

CancerCare is a national nonprofit organization whose mission is to provide free professional help to people with all cancers through counseling, education, information and referral and direct financial assistance.

## SCIENCE AND EVIDENCE BASED CANCER INFORMATION WEBSITES

Web site: [www.cancercare.org](http://www.cancercare.org)

CancerCare operates the AVONCares Program for Medically Underserved Women, in partnership with the Avon Foundation. This program provides financial assistance to low-income, under- and uninsured, underserved women throughout the country who need supportive services (transportation, child care, and home care) related to the treatment of breast and cervical cancers.

Web site: [www.cfoa.org](http://www.cfoa.org)

Cancer Fund of America is a non-profit organization set up to help cancer patients, hospices, and other non-profit healthcare providers by way of sending products free of charge directly to them.

Web site: [www.uicc.org](http://www.uicc.org)

The International Union Against Cancer (UICC) is another resource for people living outside the United States. The UICC consists of international cancer-related organizations devoted to the worldwide fight against cancer. UICC membership includes research facilities and treatment centers, and in some countries, ministries of health. Other members include volunteer cancer leagues, associations, and societies. These organizations serve as resources for the public and may have helpful information about a variety of topics, including financial assistance.

Web site: [www.livestrong.org](http://www.livestrong.org)

The LIVESTRONG™ SurvivorCare partnership between CancerCare and the Lance Armstrong Foundation provides financial assistance to cancer survivors. For patients who are 6 months post-treatment with no evidence of disease, limited financial assistance is available for transportation to follow-up appointments, medical copays, cancer-related medications, and neuropsychological evaluation.

Web site: [www.patientadvocate.org](http://www.patientadvocate.org)

The Patient Advocate Foundation (PAF) is a national nonprofit organization that provides education, legal counseling, and referrals to cancer patients and survivors concerning managed care, insurance, financial issues, job discrimination, and debt crisis matters.

## SCIENCE AND EVIDENCE BASED CANCER INFORMATION WEBSITES

**Government**

Web site: [www.govbenefits.gov/govbenefits\\_en.portal](http://www.govbenefits.gov/govbenefits_en.portal)

GovBenefits.gov is a partnership of Federal agencies with a shared vision to provide improved, personalized access to government assistance programs. This Web site's online screening tool is free, easy-to-use, and completely confidential. The user answers a series of questions, then the Web site generates a list of government benefit programs that the user may be eligible to receive, along with information about how the user can apply.

Web site: <http://ask.hrsa.gov/pc/>

The Health Resources and Services Administration's (HRSA) Bureau of Primary Health Care offers Health Centers that provide health care to low-income and other vulnerable populations. Health Centers care for people regardless of their ability to pay. They provide primary and preventive health care, as well as services such as transportation and translation.

Web site: [www.hrsa.gov/hillburton/hillburtonfacilities.htm](http://www.hrsa.gov/hillburton/hillburtonfacilities.htm)

Hill-Burton is a program through which hospitals receive construction funds from the Federal Government. Hospitals that receive Hill-Burton funds are required by law to provide some services to people who cannot afford to pay for their hospitalization.

Web site: [www.irs.ustreas.gov](http://www.irs.ustreas.gov)

Income tax deductions: Medical costs that are not covered by insurance policies sometimes can be deducted from annual income before taxes. Examples of tax deductible expenses might include mileage for trips to and from medical appointments, out-of-pocket costs for treatment, prescription drugs or equipment, and the cost of meals during lengthy medical visits.

Web site: [www.cms.hhs.gov/home/medicaid.asp](http://www.cms.hhs.gov/home/medicaid.asp)

Medicaid (Medical Assistance) a jointly funded, Federal-State health insurance program for people who need financial assistance for medical expenses, is coordinated by the Centers for Medicare & Medicaid Services (CMS), formerly the Health Care Financing Administration.

Web site: [www.medicare.gov](http://www.medicare.gov)

Medicare is a Federal health insurance program also administered by the CMS. Eligible individuals include those who are 65 or older, people of any age with permanent kidney failure, and disabled people under age 65.

## SCIENCE AND EVIDENCE BASED CANCER INFORMATION WEBSITES

Web site: [www.ssa.gov](http://www.ssa.gov)

Social Security provides a monthly income for eligible elderly and disabled individuals. Information on eligibility, coverage, and how to apply for benefits is available from the Social Security Administration.

Web site: [www.ssa.gov/pubs/11011.html](http://www.ssa.gov/pubs/11011.html)

Supplemental Security Income (SSI) supplements Social Security payments for individuals who have certain income and resource levels. SSI is administered by the Social Security Administration. Information on eligibility, coverage, and how to file a claim is available from the Social Security Administration.

Web site: [www.va.gov/vbs/health](http://www.va.gov/vbs/health)

Veterans' benefits: Eligible veterans and their dependents may receive cancer treatment at a Veterans Administration Medical Center. Treatment for service-connected conditions is provided, and treatment for other conditions may be available based on the veteran's financial need.

### **Prescription Drug Coverage**

Web site: [www.needymeds.com](http://www.needymeds.com) \*

NeedyMeds is a 501(3)(c) nonprofit organization with the mission of helping people who cannot afford medicine or health care costs. The information at NeedyMeds can be obtained anonymously and is free of charge. NeedyMeds is an information source similar to the Yellow Pages; it does not supply medications or financial assistance, but helps people find assistance programs and other available resources.

Web site: [www.pparx.org/Intro.php](http://www.pparx.org/Intro.php)

The Partnership for Prescription Assistance brings together America's pharmaceutical companies, doctors, other health care providers, patient advocacy organizations and community groups to help qualifying patients who lack prescription coverage get the medicines they need through the public or private program that's right for them.

Web site: [www.copays.org](http://www.copays.org)

The Patient Advocate Foundation's Co-Pay Relief Program provides limited payment assistance for medicine to insured patients who financially and medically qualify.

## SCIENCE AND EVIDENCE BASED CANCER INFORMATION WEBSITES

**Travel and Housing**

Web site:

[www.cancer.org/docroot/SHR/content/SHR\\_2.1\\_x\\_Hope\\_Lodge.asp?sitearea=SHR](http://www.cancer.org/docroot/SHR/content/SHR_2.1_x_Hope_Lodge.asp?sitearea=SHR)

Hope Lodge, a temporary housing program supported by ACS, provides free, temporary housing facilities for cancer patients who are undergoing treatment.

Web site: [www.angelflight.org](http://www.angelflight.org)

Angel Flight West arranges free air transportation in response to health care and other compelling human needs.

Web site: [www.corpangelnetwork.org](http://www.corpangelnetwork.org)

Corporate Angel Network is the only charitable organization in the USA whose sole mission is to ease the emotional stress, physical discomfort and financial burden of travel for cancer patients by arranging free flights to treatment centers, using the empty seats on corporate aircraft flying on routine business.

Web site: [www.nahhh.org](http://www.nahhh.org)

The National Association of Hospital Hospitality Houses, Inc. is a non-profit corporation serving facilities that provide lodging and other supportive services to patients and their families when confronted with medical emergencies. Each facility assures that a homelike environment is provided to persons who must travel to be with a patient or to receive necessary outpatient care.

Web site: [www.patienttravel.org/](http://www.patienttravel.org/)

The National Patient Travel Helpline provides information about all forms of charitable, long-distance medical air transportation and provides referrals to all appropriate sources of help available in the national charitable medical air transportation network.

Web site: [www.rmhc.com](http://www.rmhc.com)

Ronald McDonald Houses, supported by Ronald McDonald House Charities, provide a "home away from home" for families of seriously ill children receiving treatment at nearby hospitals. Ronald McDonald Houses are temporary residences near the medical facility, where family members can sleep, eat, relax, and find support from other families in similar situations.

Cancer Family Network was founded in 1990 as For One Another, by volunteers dedicated to providing a healthy, supportive and educational experience for Montana families dealing with cancer. As we understand a diagnosis affects the entire family, CFN programs and services respond to the needs of the cancer survivor of any age and his or her family members. Cancer Family Network promotes the physical, emotional, and spiritual well-being of Montana families affected by cancer - through fun, friendship, and hope.

The Cancer Survival Toolbox is a free, self-learning audio program that has been developed by leading cancer organizations to help people develop important skills to better meet and understand the challenges of their illness. While created primarily for people who have been recently diagnosed with cancer, the Toolbox can help anyone who is facing hard decisions and changes in life due to cancer. Family members and caregivers can also use the Toolbox on behalf of a child or anyone else affected by cancer.
